September 14, 2007

New Orleans, LA: St. Anna's Residence, a senior citizens housing facility has selected Landis Construction Co., LLC to provide general contracting services for an 11,700 square feet renovation.

Renovations of the three story facility are scheduled to begin by October 2007. Demolition of the existing interior and structural concrete block walls will be replaced with new concrete footings that will support the new floor plan designed by Blich Knevel Architects. The first floor renovations will consist of new office spaces, a board room, a parlor room, reception area and dietary facility. The second and third floors will house residence and staff quarters. A new roof, lobby and elevator will also be added to the facility.

St. Anna's Residence was established in 1850 and is located in the historic Garden District of New Orleans, providing independent seniors exceptional living quarters and care.
